Steel Heavy Duty Low Profile Skid Steer Bucket 60 In. Black

MODEL EA-SKSB-60-LPX

Facilities Maintenance / Skid Steer Buckets

PRODUCT OVERVIEW

A skid steer bucket is the perfect asset to the landscaping and construction industries. The low profile design and hefty volume allowance makes maneuvering heavy loads a cinch. With a globally recognized attachment mechanism, connecting to an existing skid steer has never been easier. Once securely in place, the unit, along with its reinforced bottom plate, is ready to transport heavy loads and minimize manual labor time. The top of the bucket is also equipped with an anti-slip step plate for safe exiting of the skid steer. The LPX model includes a thicker steel construction than the standard model. The LPX models are also wider and have a bolt on cutting edge that is double beveled and reversible.

KEY FEATURES

- Resilient leading edge for digging below the surface
- All welded steel construction for robust strength
- Universal mounting system for simple attachment
- Large capacity for heavy loads

CORE PRODUCT DATA

ASSEMBLED WEIGHT **535 lbs**	ASSEMBLED SIZE **60" W x 37.25" L x 19.25" H**	SHIP WEIGHT **575 lbs**
PACKAGE 1 SIZE **60" W x 38" D x 24" H**	COLOR / FINISH **Black**	FREIGHT TYPE **LTL Palletized**
