Fiberglass Dock Plate 48 In. x 24 In. 1000 Lb. Capacity Yellow

MODEL FGDP-4824-1000

Loading Dock Equipment / Fiberglass Dockplate

PRODUCT OVERVIEW

A fiberglass dock plate is a simple and manageable way to bridge the gap between areas. A lightweight construction enables simple maneuverability, while the brightly colored anti-slip design supports visibility when approaching entries and exits. A handle is included on either side for a more even lifting. A metal edge is attached to both sides of the dock plate to diminish the surface differences, as well as, protect the units overall structural integrity.

KEY FEATURES

- Fiberglass construction is lightweight and simple to handle
- Treaded surfaces to minimize slippage
- Edges are protected for smooth traversing between surfaces
- Compact design for minimal storage space
