

Steel Fork Rear Spacer 6-1/2 In. Width Yellow

MODEL FRS-6-12

Fork Truck Attachments / Fork Rear Spacers

PRODUCT OVERVIEW

A rear spacer protects against possible damage to the fork truck, as well as products. Insert the loop at the tip of the fork and slide it up at a 45 degree angle. Then, lay it down over the existing forks. The attached end loop secures the spacer around each fork. Once in place, the spacers prevent pallets from retreating backwards onto the fork.

KEY FEATURES

- Sold in pairs
- Steel construction for long lasting strength
- Accommodates 2 in. maximum fork thickness
- Compact design leaves plenty of usable space on forks
