Factory Installed Steel Hydraulic Box Dumper Safety Light Curtain Option Yellow

MODEL HBD-SLC

Ergonomic Solutions / Electric/Hydraulic Box Dumpers

PRODUCT OVERVIEW

Are you looking to improve your workplace safety? Are you tired of the ordinary and want something modern? If so, try a safety light curtain! Traditional box dumper safety gates need constant interaction, which wreak havoc on production efficiencies. On the contrary, the safety light curtain is so hands off; one might forget that it's even there! The photoelectric sensor of the light curtain keeps both personnel and work areas safe, while taking the element of human error away. If one or more of the 60 Infrared LED light beams are interrupted, the automatic safety switch will engage causing the operation of the box dumper to shut down. With this curtain protecting the entrance, the layout continues to give ample room for the box dumper to maneuver...

KEY FEATURES

- Steel mesh perimeter design
- DC power supply
- Force guided relay
- Pushbutton enclosure
