Drum Handling Equipment / IBC Tilt Stands w/ Fork Pockets & IBC Tilting Cart

## PRODUCT OVERVIEW

An intermediate bulk container tilt support stand is designed to provide a secure tilting of containers for complete draining. Anchor all 4 legs to the ground with 3/8" X 4" (L) anchor bolts. The adjustable height of the stand allows for easy access to valve connections and minimizes user bending and twisting. To use, simply place the container on the stand. When the container is in the secure position, start the draining process. As the fluid flows from the container, the rear of the stand platform will rise up creating an angle for a better release of fluids.
