Steel Hydraulic Telescoping Boom 24 In. Fork Pocket Center 8,000 Lb. Capacity

MODEL LM-1T-8-24-HBE-TP

Fork Truck Attachments / Hydraulic Powered Fork Truck Booms

PRODUCT OVERVIEW

The fork truck powered (TP) telescoping boom has all the benefits of the standard lifting boom, except now it has the option to be powered. This boom can be powered by utilizing your fork trucks hydraulic system. By connecting hydraulic hose between the boom and your forklift, the boom can then be extended or retracted. These features allow personnel to maneuver the length of the boom automatically, reducing manual labor. Includes two (2) lifting hooks and a painted finish.

KEY FEATURES

- Unique design converts fork trucks into overhead lifting cranes
- Fork pockets with safety strap attach & secure boom to fork truck
- Robotically welded construction provides precision and durability
- Promotes workplace efficiency
