Steel Auto Wrap Stretch Wrap Machine 60 In. Turntable Diameter 4,000 Lb. Capacity Blue

MODEL SWA-60-AW

Packaging Equipment / Medium Duty High Performance Auto-Wrap Stretch Wrap Machine

PRODUCT OVERVIEW

The Medium Duty high performance auto-wrap stretch wrap machine has a user friendly control center that provides workers with efficient control of the wrapping process. The state of the art digital control circuit allows the operator to set the number of pallet rotations and film wrapping patterns, with four (4) standard multifunction wrapping patterns. The operator simply ties off the film wrap on the carousel and presses the start button. When the unit has completed the wrapping process, the operator can simply cut film or use auto brake feature and remove the wrapped pallet. The powered carousel has variable speeds with a soft start and stop feature. Photocell sensors automatically adjust to different pallet heights.

KEY FEATURES

- Stretch wrap design increases shipping productivity
- Simple to use automatic wrap technology
- Adjustable wrap speed to fit users preference
- Steel construction provides a long lasting rugged use
