Steel Wheel Riser With Roll Off Guard 96 In. x 24 In. x 10 In. 40,000 Lb. Capacity Brown

MODEL SWR-ROG-24-10-96

Loading Dock Equipment / Steel Wheel Risers

PRODUCT OVERVIEW

A standard wheel riser is a great asset to have available when working in the shipping and receiving industries. But, this wheel riser is more than standard. With a steel construction, this unit includes a roll off edge guard that acts as a stop point. This allows the user to safely mount the wheel riser without the fear of going too far. The raised tread surface gives added traction throughout the ascending and descending action. Fork pockets are attached for simple movement of the unit between work areas. Liquid paint finish.

KEY FEATURES

- Raised back edge prevents roll offs
- Built-in fork pockets allow movement with a fork truck
- Raised diamond tread plate surface provides a non-slip grip
- Ramp design can be stacked for compact storage when not in use
