Fiberglass Reinforced Polypropylene Horizontal Drum Tap with 2 In. Bung Size Blue

MODEL TAP-3

Drum Handling Equipment / Horizontal Drum Tap

PRODUCT OVERVIEW

This unique horizontal drum tap will allow you to open a drum bung, empty the contents of the drum, and close the drum bung, all with the drum in the horizontal position. Operation is simple: attach drum tap to bung with locking ring, push handle towards drum and twist to unscrew bung, pull handle out away from drum to empty drum contents. Reverse operation to close drum and remove drum tap from bung. May be used to fill drums in the horizontal position with the bung positioned at the top of the drum. Works with any size steel drum lid.

KEY FEATURES

- 2 inch bung size
- Eliminates need to rotate the drum to gain access
- Nitrate rubber O-rings
- Save time, energy, and reduce risk of spills
