Steel Spiked Traffic Speed Bump 39" Wide 20 Ton Axle Load Capacity Yellow

MODEL TSPIKE-39

Facilities Maintenance / Spiked (Anti-Backup) Speed Bump

PRODUCT OVERVIEW

A spiked speed bump is an easy way to control the movement of traffic, while deterring vehicles from entering and exiting in the same lane. With a retractable spiked design, the speed bump allows traffic to flow only in a single direction. When the vehicle enters in the correct direction the spikes will submerge into the construction of the bump allowing the vehicle to pass unobstructed. If the vehicle were to exit using the same lane, the spikes will not retract but continue to stand tall.

KEY FEATURES

- Connectible to additional spiked speed bumps
- Galvanized spikes
- Crossable at a maximum of 5 MPH
- Tires must pass over parallel to the spikes

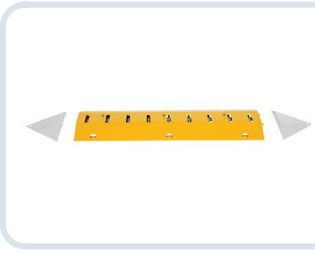

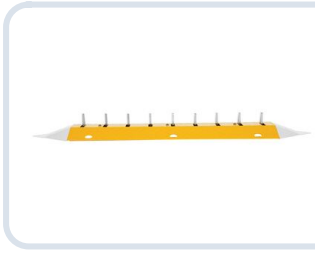

CORE PRODUCT DATA

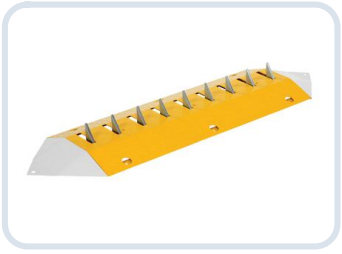

ASSEMBLED WEIGHT **49 lbs**	ASSEMBLED SIZE **39.75" W x 15.25" L x 2" H**	SHIP WEIGHT **47 lbs**
PACKAGE 1 SIZE **20" W x 49" D x 7" H**	COLOR / FINISH **Yellow**	FREIGHT TYPE **Parcel**

AVAILABILITY Available **QUICKSHIP: YES**
